# Flujo de trabajo para publicación en acceso abierto

Todos los artículos enviados a Cambridge University Press son sometidos a una rigurosa revisión por pares para mantener la alta calidad de nuestras revistas.

La decisión de publicar un artículo no se ve afectada si se publica abierto o bajo pago.

# Proceso de transacción

Trabajamos con *Rightslink*<sup>®</sup>-CCC para realizar los cargos por procesamiento de artículos (APCs).

Los autores que participan bajo el acuerdo de Read and Publish se benefician también de la herramienta **OA Agreement Manager** de *Rightslink's*, la cual tiene el propósito de facilitar transacciones financieras más fluidas y permitir la aplicación de excepciones de APC.

Esto nos permite identificar a los autores que son elegibles para una excepción/descuento de APC y permitirles buscar financiamiento de su institución.

# Decisiones del manuscrito – Proceso de cambios

Los autores recibirán un correo electrónico de nuestro socio de licencias digitales, Ironclad, para recopilar información para su acuerdo de licencia a través de un formulario en línea.

La mensajería dentro del formulario está diseñada para artículos marcados como elegibles bajo un acuerdo de R&P, dependiendo de:

- Institución del autor correspondiente
- País del organismo de financiación
- Tipo de contenido del artículo (es decir, artículo de revisión frente a artículo de investigación)

## Messaging for hybrid journals (R&P):

# Eligiendo la licencia correcta de Creative Commons

## CC BY (atribución)

CC BY otorga una licencia sin restricciones para usar el contenido respectivo. Cómo se usa el contenido, p. Ej. en forma original o modificada, por quién o con qué propósito, es irrelevante.

## CC BY-SA (Atribución-Compartir-Igual)

Como licencia general de Wikipedia, CC BY-SA es una de las licencias CC más importantes y extendidas. Se recomienda a los licenciarios que deseen que su contenido se cargue en Wikipedia, o que deseen combinarlo con el contenido de Wikipedia, que utilicen CC BY-SA.

La única diferencia entre CC BY-SA y CC BY es la cláusula ShareAlike en la sección 3b del código legal. Bajo la licencia CC BY, cualquier persona que adapte el trabajo puede redistribuir una versión modificada bajo los términos de su elección. CC BY-SA, sin embargo, vincula el adaptador a los términos de la licencia original. En otras palabras, las versiones adaptadas deben compartirse bajo CC BY-SA o una licencia compatible.

## CC BY-ND (atribución sin derivados)

La licencia CC BY-ND no permite adaptaciones de la obra. Para proteger su integridad, solo se pueden distribuir y compartir copias textuales. La restricción NoDerivatives puede dar lugar a problemas importantes con la combinación de diferentes contenidos, p. Ej. en remezclas, samples o publicaciones unidas. Aparte de esto, los términos de la licencia son los mismos que en la licencia CC BY descrita anteriormente.

# Decisión del manuscrito

El correo electrónico de aceptación enlaza con la página de información de la revista, donde los autores pueden seleccionar el formulario apropiado.

Este es el punto de decisión clave para que el autor haga su artículo OA.

## Author publishing agreement

Before Cambridge University Press can publish a journal article (or any other journal content type) we need a signed licence to publish. To find the right form, start by considering whether or not your article will be published as open access or non-open access and then select the most appropriate option.

### Non-Open Access Articles

So that we have the necessary rights to publish your article, we ask you to grant an exclusive licence to publish. (We do not ask you to transfer your copyright to us.) An exclusive licence means that the rights needed to publish the article are granted to the journal owner on exclusive basis and the ownership of the copyright remains unchanged. Select the correct form from the choice of three:

Who are you and who owns the copyright?	Correct Forms	Who Signs?
I am the sole author and <b>I own</b> the copyright in the article <b>OR</b> I am one of two or more authors and <b>we jointly own</b> the copyright in the article		One author
I am the sole author and my <b>non-government employer owns</b> the copyright in the article <b>OR</b> I am one of two or more authors and one or more of our <b>non-government employers jointly own</b> the copyright in the article		Each author and each employer
I am the sole author and my <b>government employer owns</b> the copyright in the article <b>OR</b> I am one of two or more authors and one or more of our <b>government employers jointly own</b> the copyright in the article		Each author and each employer

### Open Access Articles

So that we have the necessary rights to publish your article, we ask you to grant a non-exclusive licence to publish. (We do not ask you to transfer your copyright to us.) A non-exclusive licence means that the rights needed to publish the paper are granted to the journal owner on a non-exclusive basis and the ownership of the copyright remains unchanged. Select the correct form from the choice of two in the table below.

In open access there is a fundamental principle that content should not only be accessible but also be freely reusable for the good of research and humanity. We comply with this principle by asking you to select, within your form, a [Creative Commons licence](#). The CC licence you choose will determine how readers can use your article.

Who are you and who owns the copyright?	Correct Forms	Who Signs?
I am the sole author and <b>I own</b> the copyright in the article <b>OR</b> I am one of two or more authors and <b>we jointly own</b> the copyright in the article		One author
I am the sole author and my <b>employer (government or non-government) owns</b> the copyright in the article <b>OR</b> I am one of two or more authors and one or more of our <b>employers (government or non-government) jointly own</b> the copyright in the article		Each author and each employer

# Difusión retroactiva de OA

Los autores que no seleccionan la opción de acceso abierto y son identificados como elegibles bajo un acuerdo de R&P son informados de la oportunidad a través de un Email. Un sencillo formulario en línea permite a los autores seleccionar su licencia de Creative Commons. Este formulario funciona como un anexo a cualquier acuerdo de publicación de autor existente.

  
**Publish your article Open Access**

Through your institution's Read and Publish agreement with Cambridge University Press, you are eligible to make your article Open Access (OA) at no cost to you.

If you **have not** yet returned an author publishing agreement / licence to publish form, please go to your journal information page and select the appropriate OA form.

If you **have** completed and returned an author publishing agreement / licence to publish form, simply select the **Creative Commons licence** under which you would like your article to be published using the form below. This will instruct Cambridge University Press to make your article in *journal name* available via Open Access.

Once completed, this will function as an addendum to the original author publishing agreement for your article ('Article title', 10.1017/9895) to the extent of updating the publishing format referenced in that agreement. All other terms of your original author publishing agreement, including warranties, will remain unchanged and in force.

If you have any questions about creative commons licences, please email [OAqueries@cambridge.org](mailto:OAqueries@cambridge.org).

If you DO NOT WISH for your article to be published Open Access, do not complete and submit this form. Your article will continue to be published on the basis and in the format described in your original author publishing agreement.

Confirm Full Name \*

Confirm Email Address \*

Creative Commons licence under which you would like your article to be published: \*

\*By clicking 'Accept and Submit' you confirm that you are the corresponding author for the above article, and are agreeing to the contractual changes set out in this form on behalf of yourself and any co-authors.

## Convert your article to Open Access

Dear [Author Name](#),

This message is regarding your article, '[Article Name](#)', in [Journal Name](#). Through your affiliation with [Institution Name](#) and its [publishing agreement](#) with Cambridge University Press, you are eligible to make your article Open Access (OA) **at no cost to you**.

So that you don't miss out, we've made it easy for you to take advantage of this opportunity:

**Simply select a creative commons licence by [completing this online form](#).**

As the corresponding author, you must have full authority to execute this form on behalf of any co-authors. If you do not complete this form, we will not take any action to convert your article to OA.

If you have any questions, please [read our FAQs](#) or email [OAqueries@cambridge.org](mailto:OAqueries@cambridge.org).

### Why publish Open Access?

Publishing OA allows anyone, anywhere to find, read, and benefit from your research. OA articles:

- are downloaded three times more than non-OA articles, on average
- receive 30-50% more citations
- are freely available online globally

You can find out more on our [Publishing OA information page](#).

Kind regards
